

## **2021 PROJECTS**

### **MISSIONARY HOUSES**

We have two houses on our campus where we are able to provide a home for our missionaries to live in while they are in country. While they are on furlough here, they often continue to pay rent on their home overseas, so being able to cover the utility costs of the missionary homes on campus helps to alleviate some of their financial stress. Additionally, the houses are starting to show their age and are in need of some upkeep including siding, heating and cooling, flooring, and plumbing issues.

### **JESUS FILM PROJECT**

The Jesus Film has a long history of bringing the gospel to the unreached across the world. Video brings the story to life in ways that transcend written communication, which is true especially in oral cultures—places where written communication is scarce. When people see the life of Jesus portrayed on screen, even if they have written communication, it is life changing. Help us support The Jesus Film's translation into more native languages.

### **REDEMPTION CHURCH**

Redemption Church is a recent church plant in a diverse neighborhood in Portland. They were recently gifted an amazing, but aging building, so we would like to support Redemption Church as they repair and maintain their building so they grow and build their church body.

### **PROJECT SEND**

Project Send allows us to send staff on missionary care trips to visit our Global Outreach staff and ministries as well as sending people from our body around the world to participate in short-term missions ministry.
